The Stanford Question Answering Dataset

The Amazon rainforest (Portuguese: Floresta Amazônica or Amazônia; Spanish: Selva Amazónica, Amazonía or usually Amazonia; French: Forêt amazonienne; Dutch: Amazoneregenwoud), also known in English as Amazonia or the Amazon Jungle, is a moist broadleaf forest that covers most of the Amazon basin of South America. This basin encompasses 7,000,000 square kilometres (2,700,000 sq mi), of which 5,500,000 square kilometres (2,100,000 sq mi) are covered by the rainforest. This region includes territory belonging to nine nations. The majority of the forest is contained within Brazil, with 60% of the rainforest, followed by Peru with 13%, Colombia with 10%, and with minor amounts in Venezuela, Ecuador, Bolivia, Guyana, Suriname and French Guiana. States or departments in four nations contain "Amazonas" in their names. The Amazon represents over half of the planet's remaining rainforests, and comprises the largest and most biodiverse tract of tropical rainforest in the world, with an estimated 390 billion individual trees divided into 16,000 species.

Which name is also used to describe the Amazon rainforest in English?

Ground Truth Answers: also known in English as Amazonia or the Amazon Jungle, Amazonia or the Amazon Jungle Amazonia

Prediction: Amazonia

How many square kilometers of rainforest is covered in the basin?

Ground Truth Answers: 5,500,000 square kilometres (2,100,000 sq mi) are covered by the rainforest. 5,500,000 5,500,000

Prediction: 5,500,000

How many nations control this region in total?

Ground Truth Answers: This region includes territory belonging to nine nations. nine nine

Prediction: nine

How many nations contain "Amazonas" in their names?

Ground Truth Answers: States or departments in four nations contain "Amazonas" in their names. four four

Prediction: four

AI Beats Human Lawyers in CaseCrunch Prediction Showdown + DATA UPDATES

🕒 28th October 2017 👤 artificiallawyer 📁 Legal AI Prediction 💬 9

CaseCrunch is proud to announce the results of the lawyer challenge. **CaseCruncher Alpha scored an accuracy of 86.6%. The lawyers scored an accuracy of 62.3%.**

Over 100 commercial London lawyers signed up for the competition and made over 750 predictions over the course of a week in an unsupervised environment.

The problems were real complaints about PPI mis-selling decided and published by the Financial Ombudsman Service (FOS) under the Freedom Of Information Act. (*N.B. Payment Protection Insurance, or PPI, has been a massive issue in the UK, with banks having to pay customers billions of pounds in total refunds for making consumers take on insurance products they never required.*)
